## **Accessories for Survey GPS Systems**

Bidder must also bid the “percent discount from manufacturer’s list” for GPS-related items (Accessories) in addition to bidding the product sections on Attachment B. The bid price evaluation of determining the lowest bidder meeting the minimum specifications will be based on the out right purchase bid prices for the product sections, not from the “percent discount from list” figure or from the lease pricing.

This “percent from discount list” will be reflected on the resulting contract making additional GPS-related items (Accessories) that are available from the manufacturer a part of the contracts. Non-GPS items may not be considered a part of the GPS state contract; this would include other product lines manufactured by a GPS manufacturer.

As a contractor’s GPS-related accessories product list changes due to technology advancements or enhancements, products that are discontinued or superseded will become a part of the current state contract offered on the current product list at the same “percentage discount from list”.

**Your Percent Discount From Manufacturer’s List for GPS-related Accessory items is \_\_\_\_\_.**

Please note:

The percent discount from manufacturer’s list for GPS-related accessory items bid must be guaranteed for the entire term of the contract (this includes renewal options). You may increase your % discount to the state. However, you may never decrease the % discount.
